

Rahman Cotton industries Pakistan

Empowering your control

www.sices.eu

The Company is engaged in the production of Super fine counts of 80s and 100s combed/carded yarn from extra long staple cotton of USA Pima and CIS origin. They also manufacture and sell yarns of different counts and quality ranging from 10/s to 60/s combed & Carded yarns from Cotton, Viscose and Polyester for Air jet and Conventional looms.

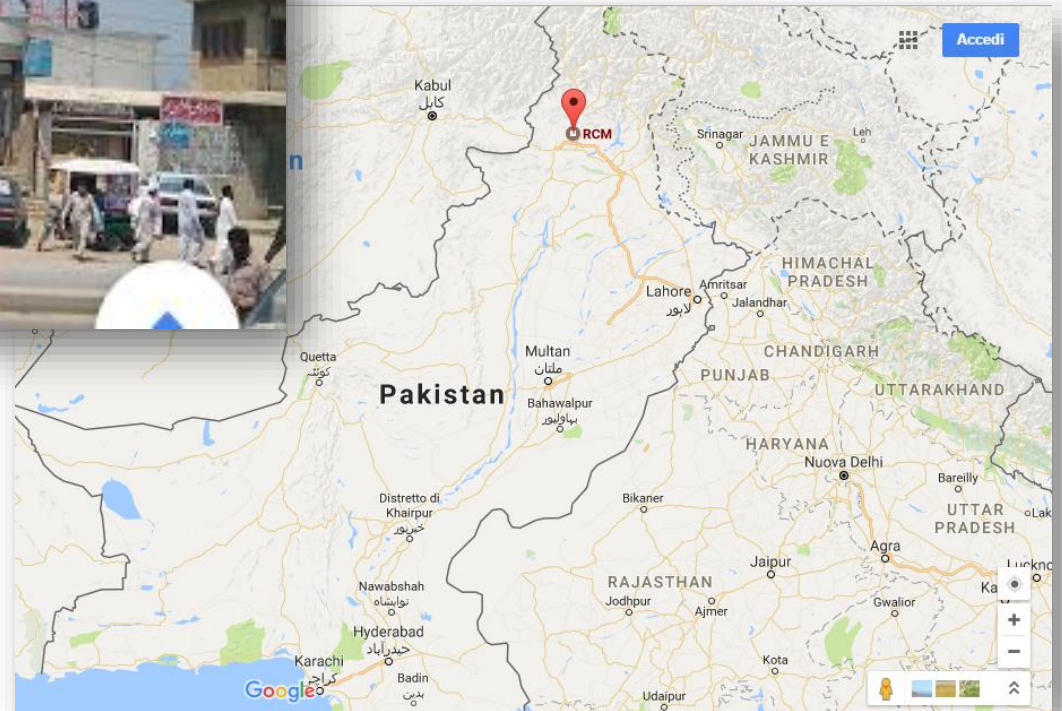

All products pass through a stringent Quality Management System and are supervised by well-equipped laboratory checks to ensure conformity to the highest standards.

This mills offer employment to about 1200 skilled/ semi-skilled workers in a remote underdeveloped area of the province.
